Subject Index to Volume 11

Acknowledgments, 651
Affective disorder, and assortative mating, 43ff
Affective dysregulation, EEG pattern, 599ff
Affective illness, heredity, 31ff
Agnosia, visual, in Alzheimer's disease, 333ff
Alcohol withdrawal
  and EEG, 435ff
  evoked response, 435ff
Alcoholism
  and EEG, 435ff
  evoked response, 435ff
  memory impairment, 109ff
  serotonin levels, 283ff
Alzheimer's disease, visual agnosia, 333ff
Amine metabolites
  and body movement, 421ff
  clinical symptoms, 421ff
Amphetamine, in depression, effect on 3-methoxy-4-hydroxyphenylglycol, 377ff
Analogy tests, after open heart surgery, 697ff
Antinuclear factor, in depression, 69ff
Anxiety
  cortisol secretion, 101ff
  effect of electrosleep, 233ff
Auditory attention, in schizophrenia, 325ff
Avoidance behavior, after cingulumotomy, 175ff
Avoidance learning, effect of midbrain raphe lesion, 575ff

Behavior
  effect of cocaine, 403ff
  genetics of, 525ff
Bipolar course, in schizo-affective illness, 195ff
Blood transit time
  in brain disease, 697ff
  in schizophrenia, 697ff
Books received, 121, 373
Brain disease, and blood transit time, 697ff
Brain function, correlation with emotional behavior, 463ff

Cannabis
  and EEG spectra, 663ff
  and hallucinations, 663
Carbon dioxide tension, effect on contingent negative variation, 535ff
Catatonia, 115f
Catecholamine excretion
  effect of antiparkinsonian drugs, 363ff
  effect of neuroleptics, 363ff
  effect of vitamins, 363ff
Catechol-*O*-methyltransferase
  in manic-depressive illness, 613ff
  in schizophrenia, 613ff
  inherited differences, 641ff
Central amine metabolism, effect of cocaine, 403ff
Cerebellar stimulation, psychometric study, 543ff
Cingulumotomy
  and avoidance behavior, 175ff
  effect on ileum motility, 175ff
Clomipramine, effects of, 91ff
  effect on serotonin uptake, 91ff
  effect on tryptophan-binding, 91ff
Cocaine, effect on behavior, 403ff
  and kindling, 403ff
  and psychosis, 403ff
  effect on central amine metabolism, 403ff
Contingent negative variation (CNV), and carbon dioxide tension, 535ff
Correspondence, 115f, 251f, 367ff, 525ff
Corticosterone levels, effect of septal lesions, 583ff
Cortisol, in schizophrenia, 389ff
Cortisol secretion, and anxiety, 101ff
  therapeutic success, 101ff
Cyclic nucleotides, in nervous dogs, 743ff

Depression
antinuclear factor, 69ff
effect of amphetamine on 3-methoxy-4-hydroxyphenylglycol, 377ff
genetic linkage, 767ff
homovanillic acid after ECT, 85ff
5-hydroindoleacetic acid after ECT, 85ff
effect of lithium on 3-methoxy-4-hydroxyphenylglycol, 377ff
effect of 3-methoxy-4-hydroxyphenylglycol, 377ff
REM latency, 159ff
serotonin levels, 283ff
sleep shifts, 239ff
L-tryptophan, 295ff
tryptophan after ECT, 85ff
3,4-Dimethoxyphenylethylamine, 75ff
C-L-Dopa, effect on C-homovanillic acid, 227ff
Dream types, genetic factors, 359ff
Drug abuse, effect of monoamine oxidase inhibitors, 451ff

Editorials, 1, 123f, 265f, 375f, 653f
Electroconvulsive therapy (ECT)
current density, 303ff
effect on 5-hydroindoleacetic acid levels, 85ff
effect on tryptophan levels, 85ff
homovanillic acid levels, 85ff
EEG, and affective dysregulation, 599ff
cannabis hallucinations, 663ff
in alcohol withdrawal, 435ff
in alcoholism, 435ff
Electrophysiology, in schizophrenia, 3ff
Electrosleep, effect on anxiety, 233ff
Emotional behavior, correlation with brain function, 463ff
Emotionaliy disturbed children, and vestibular dysfunction, 719ff
Evoked response, in alcoholism, 435ff
in alcohol withdrawal, 435ff

Genetic factor, in dream types, 359ff
Genetic linkage, in depression, 767ff
Genetic marker, and histocompatibility, 655ff
Genetics, and behavior, 525ff
Growth hormone, effect of septal lesions, 583ff

Heredity, in affective illness, 31ff
Heroin addiction, effect of naltrexone, 679ff

Histochemical changes
in pimozide treatment, 53ff
in schizophrenia, 53ff
Histocompatibility, a genetic marker for schizophrenia, 655ff
Homovanillic acid
after ECT, 85ff
in depression, 85ff
in nervous dogs, 743ff
C-Homovanillic acid, effect of C-L-Dopa, 227ff
5-Hydroxyindoleacetic acid, 85ff
after ECT, 85ff
in depression, 85ff
in nervous dogs, 743ff

Ileum motility, after cingulumotomy, 175ff
ITP pyrophosphohydrolase, in psychiatric disorders, 755ff

Kindling, effect of cocaine, 403ff

Lateral asymmetry, in manic-depressive disease, 313ff
Lithium, in depression, the effect on 3-methoxy-4-hydroxyphenylglycol, 377ff

Malaria, psychiatric symptoms, 445ff
Manic-depressive disease, lateral asymmetry, 313ff
Manic-depressive illness, effect of catechol-*O*-methyltransferase, 613ff
MAO activity, in schizophrenia, 245ff
Maprotiline, effects of, 91ff
effect on serotonin uptake, 91ff
effect on tryptophan-binding, 91ff
Mating, in affective disorder, 43ff
assortative, 43ff
Memory, in chronic alcoholics, 109ff
Mescaline, effect on rats, 457ff
5-Methoxy-*N,N*-dimethyltryptamine, effects in animals, 355ff
3-Methoxy-4-hydroxyphenylglycol, in depression, 377ff
Midbrain raphe lesion, effect on avoidance learning, 575ff
Monoamine metabolites, in schizophrenia, 245ff
Monoamine oxidase inhibitors, and drug abuse, 451ff

Nailfold plexus
and heredity, 205ff
visibility of, 205ff

Naltrexone, in heroin addiction, 679ff
Nervous dogs
  and cyclic nucleotides, 743ff
  and homovanillic acid, 743ff
  and 5-hydroxyindoleacetic acid, 743ff
News and Notes, 117ff, 253ff, 371, 529ff, 647ff, 777ff

Open heart surgery
  and analogy tests, 687ff
  psychopathology of, 687ff

Papaverine, and cerebral blood flow, 217ff
Pargyline-pretreated rats and β-phenylethylamine, 731ff
β-Phenylethylamine, effect on pargyline-pretreated rats, 731ff
Pimozide treatment, of schizophrenia, 53ff
Plasma factor, in schizophrenia, 251ff
Psychiatric disorders, and ITP pyrophosphohydrolase, 755ff
Psychiatrists, training of, 367ff
Psychiatry
  in Malaysia, 345ff
  in Singapore, 345ff
  in Taiwan, 345ff
  in Thailand, 345ff
Psychopathology, after open heart surgery, 687ff
Psychosis, effect of cocaine, 403ff
Pupillary contraction, in schizophrenia, 267ff

REM latency, in depression, 159ff

Schizo-affective illness, bipolar course, 195ff
Schizophrenia
  and blood transit time, 697ff
  and histocompatibility, 655ff
  and sleep, 709ff
Schizophrenia *(cont'd)*
  auditory attention, 325ff
  effect of catechol-*O*-methyltransferase, 613ff
  effect of cortisol, 389ff
  effect of tryptophan, 38ff, 635ff
  electrophysiologic view, 3ff
  histochemical changes, 53ff
  MAO activity, 245ff
  monoamine metabolites, 245ff
  pimozide treatment, 53ff
  plasma factor, 251ff
  pupillary contraction, 267ff
Septal lesions
  effect on corticosterone levels, 583ff
  effect on growth hormone, 583ff
Serotonin, in depression, 283ff
Serotonin uptake
  effect of clomipramine, 91ff
  effect of maprotiline, 91ff
Sleep
  in depression, 239ff
  in schizophrenia, 709ff
Stimulant infusions, effects of, 625ff
  self-administered, 625ff
Stress, 583ff
Synaptic transmission, 481ff

Tryptophan
  after ECT, 85ff
  effect on schizophrenia, 635ff
  in depression, 85ff
  in schizophrenia, 389ff
L-Tryptophan, in depression, 295ff
Tryptophan-binding
  effect of clomipramine, 91ff
  effect of maprotiline, 91ff

Vestibular dysfunction, in emotionally disturbed children, 719ff
